

Axolotl

Kids Canvas Painting Guide

You will need: Preprinted 8 x 10 canvas, acrylic paints, large and small brushes
Water, paper towels, and a palette or paper plate

Ready-to-use paints: turquoise, light blue, green, yellow, light pink, pink, black, and white. No mixing needed.

1. Water and bubbles

Brush a thin turquoise coat around the shapes. Paint bubbles light blue. Keep their shine marks white. Rinse and blot your brush. Let dry.

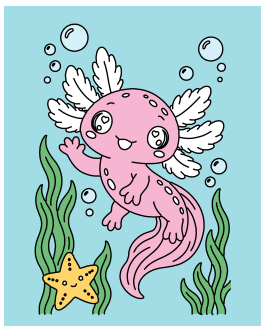

2. Green plants

Paint all the seaweed green. Use the small brush at pointed tips. Keep the starfish and axolotl white. Let this coat dry.

3. Yellow starfish

Fill the starfish with yellow. Leave its eyes and little dots for later. Keep your coat thin so the printed lines still show. Let dry.

4. Light pink body

Use light pink for the head, body, arms, feet, and long tail. Leave the eyes, cheeks, spots, mouth, and feathery gills white. Let dry.

5. Pink details

Paint all six feathery gills pink. Add pink to the cheeks, body spots, and inside the mouth. Rinse and blot before changing colors. Let dry.

6. Faces and drying

Use black for eyes, eyebrows, smiles, and starfish dots. Add white eye shines and bubble shines. Lay the canvas flat to dry. Wash brushes and wipe your palette.

Thin coats - Dry between colors - Have fun!

Print artwork at Actual size / 100%. Guide: US Letter. Ages 8-14.
