

Sea Turtle

Kids Canvas Painting Guide

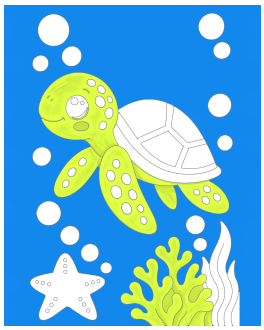

You will need: Preprinted 8 x 10 canvas, acrylic paints, large and small brushes
Water, paper towels, and a palette or paper plate

Ready-to-use paints: blue, lime green, green, dark green, yellow, light blue, black, and white. No mixing needed.

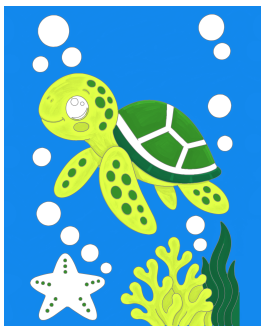

1. Blue water

Start on the preprinted canvas. Brush thin blue coats around the turtle, plants, starfish, and bubbles. Leave those shapes white. Use broad strokes. Rinse and blot your brush. Let dry.

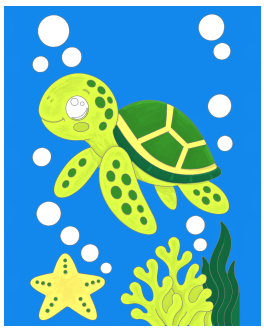

2. Lime turtle and coral

Paint the head, neck, all flippers, and coral lime green. Keep the eye and oval spots white. The cheek stays lime green too. Use a small brush at the edges. Let dry.

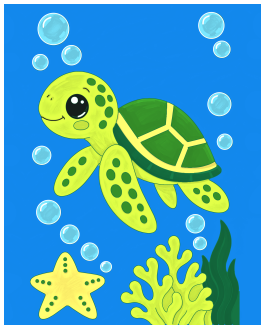

3. Greens and spots

Paint the shell plates and all turtle and starfish spots green. Paint the shell rim and tall seaweed dark green. Follow each shape with your brush. Rinse and blot between colors. Let dry.

4. Yellow shell bands

Paint the wide shell bands and starfish yellow. Use the small brush around the green dots. Keep the spaces between shell plates neat. Use thin coats and let each coat dry.

5. Bubbles and face

Paint bubbles light blue. Add white rims and shines. Paint the eye, eyebrow, nostrils, and smile black; keep the eye shines white. Use dark green to neaten outlines. Let dry.

6. Dry and tidy

Check for missed spots. Add a thin second coat if needed. Keep cheeks lime green. Lay the canvas flat to dry. Wash your brushes, wipe your palette, and tidy your space.

Thin coats - Dry between colors - Have fun!

Print artwork at Actual size / 100%. Guide: US Letter. Ages 8-14.
