

UVA Sunset

Canvas Painting Guide

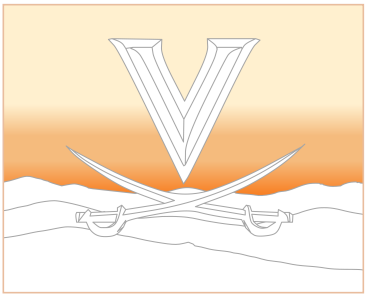

Materials: Preprinted 10 x 8 horizontal canvas, acrylic paints, large and small brushes
Water cup, paper towels, palette or paper plate

Paints: cream, peach, orange, light blue, medium blue, dark blue,
reddish-orange, light gray and white

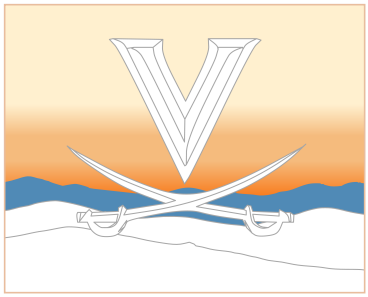

1. Paint the cream sky

Start with the preprinted canvas. Brush thin cream coats around the emblem, above the mountains. Keep the V, sabres and mountain bands white. Rinse and blot between colors.

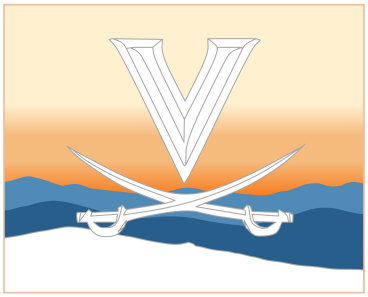

2. Add the sunset

Use peach across the middle sky and orange just above the mountains. Feather the touching edges with light sideways strokes. Let dry.

3. Paint the far ridge

Use light blue for the highest mountain band. Fill to the next line. Keep the lower bands and emblem white. Let dry.

4. Add the middle ridge

Fill the middle mountain band with medium blue. Follow the curves with sideways strokes. Keep the nearest mountain and emblem white. Let dry before painting beside it.

5. Fill the nearest ridge

Use dark blue in the lowest mountain band, right to the bottom edge. Keep its upper edge clear. Let dry.

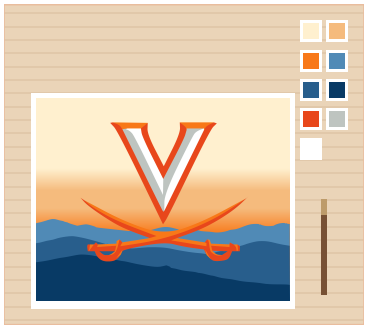

6. Paint the orange

Fill the V border and crossed sabres with orange. Use reddish-orange on their darker edges. Keep the V faces white. Use thin coats and let them dry.

7. Add gray and white

Use light gray on the shaded V faces and white on its bright faces. Keep the orange border clear. Use the small brush for the narrow shapes. Let dry.

8. Dry and clean up

Lay the finished canvas flat until fully dry. Wash and reshape both brushes, wipe your palette and close the paints.

Thin coats - Let layers dry - Enjoy painting
